US Government Interagency Training Coordinator Working Group

31 March 2010

Mr Gary Quay
JS J-7 CEP Branch

UNCLASSIFIED

USG Interagency Brief-back

Purpose: Promote an integrated operations approach to USG training.

Discussion:

- Service training requirements are increased with the need for integrated operations training; however, time available is constrained; issue also true for interagency partners
- USG planning and training processes must be institutionalized, with single DoD integrator
- An interagency working group should be held in D.C. area, in conjunction with another conference if possible
- Integrated operations training issues lack an interagency venue to vet and approve courses of action

Outcomes: The Working Group developed a complex issue and plan of action and milestones that require a formal structure to resolve.

Integrated Operations Training: Integrated operations training is the working group functional area of interest.

Issues:

Master Issue Deck: 07-001, Integration of Interagency Partners

New Issue: 10-xxx Training for Integrated Operations

UNCLASSIFIED

Integration of Interagency Partners

Briefer: Mr. Quay

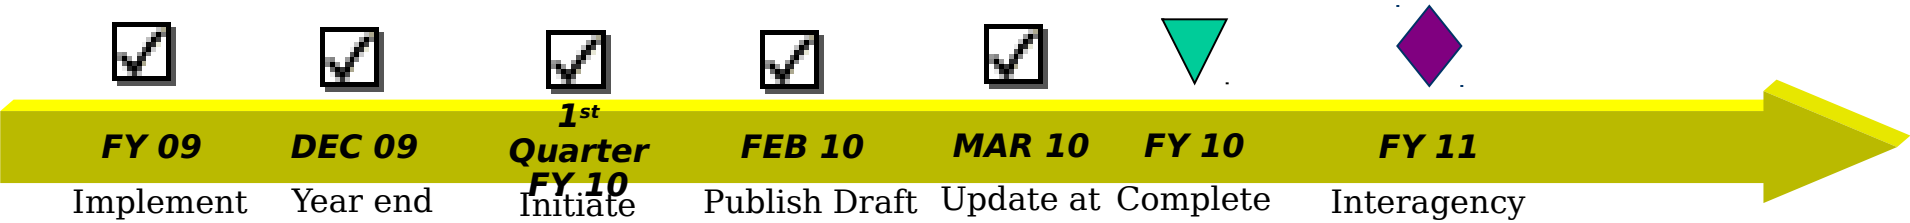
Issue 07-001: Inadequate partner representation/environmental emulation in Combatant Command and Service training, education, exercises, and experimentation degrades the quality of these events.

Discussion: DOD recognizes the value of non-DOD partner participation in its exercises. Partner participation provides authoritative and realistic input and support to training events; however, satisfying participation requests is hampered by both interagency capacity to support and perceptions of shared objectives and value.

End State: DOD events reflect current policy and the complexity of integrated planning and operations.

POA&M: To enhance partner integration: 1. Identify and analyze participation gaps. 2. Develop potential mitigation strategies.

OPRs: OSD/P&R, OSD/HD, JS J-7 JETD; **OCRs:** Combatant Commands, Services, CSAs, and NGB



UNCLASSIFIED

Training for Integrated Operations

Briefer: Mr. Quay

Issue 10-xxx: Current integrated operations (defined in DODD 1322.18) training and exercise strategy, planning, resourcing and implementation is not adequate to support current and future integrated operations requirements.

Discussion:

• USG recognizes that we must train together to effectively conduct integrated operations; however, lack:

- a comprehensive interagency training engagement strategy

- a common integrated operating picture

• Inadequate funding exacerbates the challenges of conducting integrated operations training.

End State: Integrated operations training events reflect USG national security objectives.

POA&M: 1. Develop a comprehensive DOD training strategy that includes a funding strategy. 2. Press for a USG training strategy. 3. Develop a CJCSI that implements the DOD strategy. 4. Review mission essential tasks and validate with USG interagency partners. 5. Assess readiness impact of interagency participation or lack thereof. 6. Establish an Interagency Training Community of Interest Portal.

OPRs: OSD/RSAA, OSD/P, JS J-7; **OCRs:** Combatant Commands, Services, CSAs, NGB, IA Partners
